CANO AND BANDITS ENGAGE IN BATTLE

DISPOSES OF RUMOR THAT COL-ONEL CANO HAD DESERTED TO VILLA.

That Some Supplies and Forage is Being Obtained "Off the Country" by U. S. Cavalry is Encouraging.

Washington.-Evidence of co-operation by Carranza troops with American forces hunting Villa, apparently disposing finally of rumors that Colonel Cano has deserted to Villa came to the war department from General Pershing. He reported an engagement on March 29, presumably near Generiero, between Cano's troops and one of the bands into which Colonel Dodd scattered the main Villa force.

As this clash, in which Manuel Boco, leader of the outlaws, is said to have been killed, occurred the same day that Colonel Dodd struck the Villa army, officials were convinced the Carranza columns were actively co-operating with the Americans.

'This seems to dispose finally of the rumors of disloyalty on the part of Colonel Cano," Secretary Baker said in a formal statement. Previous reports had caused officials to doubt Cano's loyalty, and General Pershing's dispatch was received with great satis-

The fact that three days elapsed after the 48-hour-old report of Colonel Dodd's engagement, before news came of the Cano fight renewed hopes that important subsequent events have not yet been reported to head-

That some supplies and forage for the cavalry, even if of poor quality, were being obtained "off the country" by General Pershing's forces was another encouraging feature of the latest report. The general said corn of inferior quality was plentiful and that beef cattle in sufficient quantity had been secured.

The state department officially denied a report that inquiry had been made of General Carranza regarding troop movements in northern Mexico. Neither the state nor the navy department had disquieting information of any kind.

Washington. - American ambassador Gerard at Berlin cabled that the German government had promisde him a prompt reply to his inquiry regarding destruction of the British steamer Sussex and other vessels on which Americans were endangered.

The foreign office, Ambassador Gerard stated, had referred his inquiry to the admiralty. While no definite time was given by the German officials within which a response would be made, Mr. Gerard stated that he had assurances it would be forthcoming as soon as possible. The American ambassador's dispatch indicated that instead of waiting for the German submarine commanders to report the admiralty office would send out inquiries to the submarine bases
